Fact Sheet: FOSTERING RESTORATION

Indonesia is home to rainforests that are rich in biodiversity. In recent years, however, the size of the rainforests has declined. The Belantara Foundation is committed to restoring degraded areas and supporting wildlife habitat to achieve sustainable forest management within its ten grant areas. This will allow Indonesia to achieve balanced development and sustainable prosperity.

Our Restoration Efforts

FOREST RESTORATION:

- 120,000 trees planted in the Orang Kayo Hitam Grand Forest, Jambi
- 43,954 trees planted in the Meranti Sungai Merah Protection Forest, Dangku Meranti, South Sumatra
- 100,000 trees planted in the Sungai Paduan protection forest, Kubu Raya – West Kalimantan
- 48,000 trees planted in the mangrove ecosystem in Semenanjung Kampar, Riau
- 12,500 trees planted in the mangrove ecosystem in Senepis, Riau

MANGROVE FOREST RESTORATION:

- Belantara's mangrove restoration projects increase biodiversity in the mangrove ecosystem as well as sustainable livelihoods for the surrounding community

PEATLAND RESTORATION:

- The Belantara Foundation undertakes projects to restore peat into the soil, plant trees and reintroduce indigenous plants, and bring landscapes back to their natural state.

PROTECTION OF AT-RISK LANDSCAPES:

- Belantara projects restore forests near the Keman River
- The Foundation also works to conserve land in the Merang peatdome of Berbak Sembilang

COMMUNITY RESTORATION:

- The Belantara Foundation engages and involves local communities in ecosystem restoration efforts. This is done through increased capacity-building and participation in planting and maintenance so conservation efforts can be carried out sustainably.

The Belantara Foundation is a non-profit organization that works to protect the Indonesian landscape by establishing local sustainability projects in areas that are set aside for conservation, reforestation and sustainable community development. Through its multi-stakeholder approach with Indonesian provincial governments, NGOs and communities, the Foundation funds programs that conserve and rehabilitate ecosystems, protect endangered species and help local farmers realize sustainable prosperity in Indonesia.
